

## eCards (Electronic Course Completion Cards)

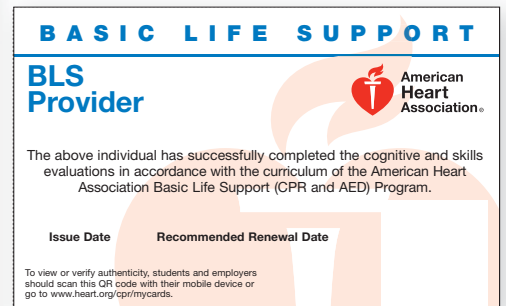

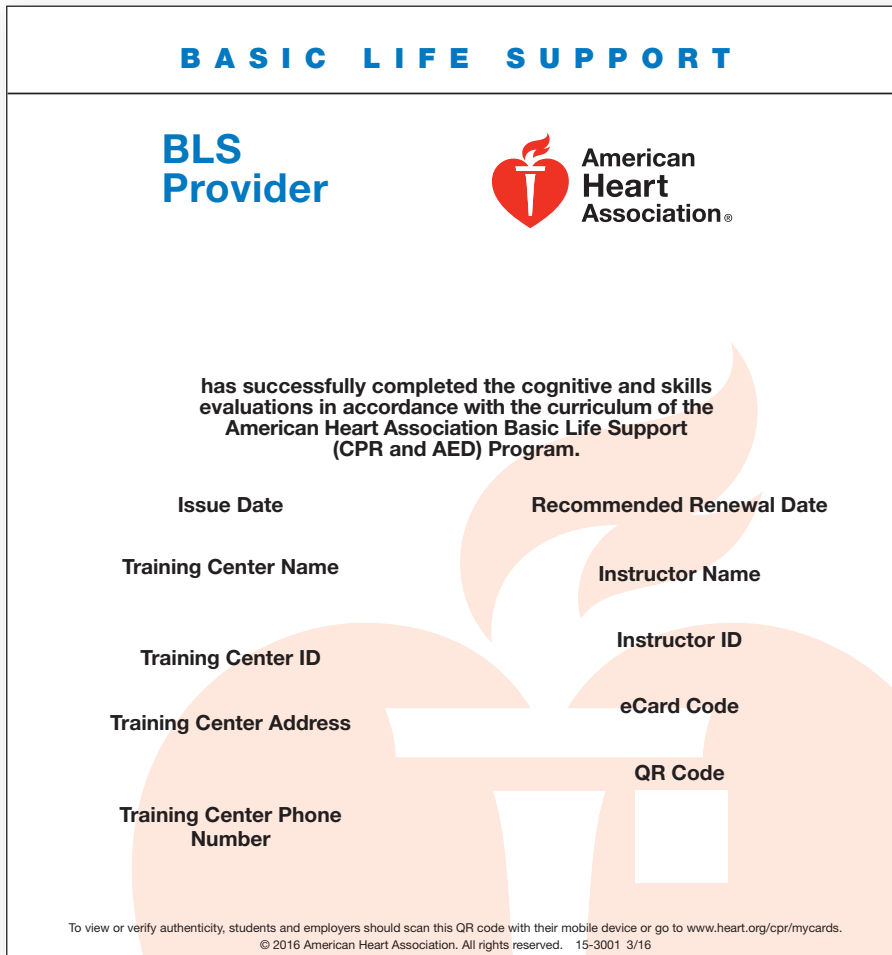

An eCard is the electronic equivalent of a printed AHA course completion card and can be provided to students as an alternative to a printed card. eCards are valid course completion cards and can be presented to employers as proof of successful completion of an AHA course. Like printed cards, eCards expire 2 years from the issue date.

Students may print eCards in a certificate-size or wallet-size format, as shown below, or may present them as an image on a mobile device. We encourage all employers and licensing entities to validate eCards as described below.

### Security and Validation

eCards are more secure than printed cards. A 3-point verification by the TCC, instructor, and student is required to issue and claim eCards. eCard information is populated electronically by the TCC or instructor and can only be altered by the TCC or AHA Customer Service.

Using the eCards Code, employers can easily verify eCards at [www.heart.org/cpr/mycards](http://www.heart.org/cpr/mycards) to prove issuance by a valid TC and instructor aligned with that TC.
